Swami Gyankirti has combined the heart of many ancient, traditional, non-traditional and modern religions and teachings to produce a unique universal blend of teachings. Under Swami Gyankirti's guidance, Healing, Empowering Energy Work, Meditation and Traditional African Spiritual Healing Methods, provide the essential foundation for Spiritual Empowerment and communion with the Divine.

SWAMI GYANKIRTI

For over 40 years Swami Gyankirti has been responding to the call of seekers worldwide, with his transformational active-participation workshops. He has combined the heart of many ancient, traditional, non-traditional and modern religions and teachings to produce a unique universal methodology. Under Swami Gyankirti's guidance, healing, empowering energy work, meditation and traditional African spiritual healing methods, provide the essential foundation for transformation, spiritual empowerment and communion with the Divine.

He Comes To Bring You Peace

In 1981, Swami Gyankirti established The Medissage Centers for Health Growth and Transformation to serve and heal the lives of people from all races, religions, cultures and walks of life. At Medissage Centers, people come to rest, pray, heal, and learn the life enhancing skills of meditation and self-reflection that create a more fulfilled and peaceful life.

Swami Gyankirti's vision is essentially a holistic one, serving to enlighten and empower mankind spiritually, emotionally, mentally, and physically; his approach is a "whole-body" approach. As with all Healing work the aim is essentially to create oneness/wholeness.

Swamiji's sessions achieve this primarily by generating and circulating amounts of energy greater than what is normally utilized within the vessel commonly called the body. This energy is then balanced, leaving one in a unique healing space totally distinct from where one was before. The New comes, cellular processes of regeneration and memory are stimulated, ego dissolves, you move out of the way and spirit happens, healing happens, oneness happens, wholeness happens, peace arises, love arises, the awareness of silence arises, and true peace is found
